

# Safety

SEPAG  
May 12, 2021

# Statistic for Children with Developmental Disorders

- 49% of children with ASD or Developmental Disabilities will wander or bolt from a safe location.
- Individuals with ASD are often attracted to water and they have little to no sense of the danger it holds.
- Drowning is the leading cause of death among children with Autism
- Traffic is also a concern for children that wander/bolt
- Other dangers include: dehydration, heat stroke, hypothermia, falling/injury or encounters with strangers
- Children with ASD are 40 times more likely to die from injuries than the general population.

# Wandering, Elopement or Bolting

- Elopement/Wandering is defined as the tendency for an individual to leave the safety of a responsible person's care or safe area, which may result in potential harm or injury to the child.
- Elopement occurs impulsively and quickly, such as running or bolting from a caregiver or contained supervised area.
- There is an increase risk of wandering associated with the severity of Autism but all children can wander.
- Wandering occurs in all different settings and under different type of adult supervision (home, school, friend's house).

# Why Might a Child Elope?

- Children and adults can wander for many reasons, such as:
  - 1) To avoid something in their environment, such as a loud noise
  - 2) Go to a favorite place, like a park, store etc.
  - 3) Avoid something they are scared of, such as a dog
  - 4) Seek out sensory stimuli, like water
  - 5) To control a situation
  - 6) To be chased
  - 7) If they see something they like
  - 8) Aimlessly walking
  - 9) Feeling overwhelmed or anxious

# What We Can Do to Keep Everyone Safe

- Prioritize Safety: Is your child attracted to water, to the street, to the woods? For older children, what friends would they run to? Park? Store?
- The child needs.....
  - ❑ To learn to swim
  - ❑ To respond to “stop,” “go” and “no” (safety language)
  - ❑ To respond to their name
  - ❑ To recognize personal space and boundaries
  - ❑ To learn any other skills that promote safety and minimize danger- for older students- this means Internet Safety

# What We Can Do to Keep Everyone Safe

- Address wandering with your child
- Let the school/teacher know if your child wanders, bolts or elopes
- Project Lifesaver (Monmouth County Program)
- Special Needs Registry (Monmouth County Program)
- Meet the police officer and first responders in your community

# What We Can Do to Keep Everyone Safe

- Print out a Google Map of your neighborhood- note the areas that your child might frequent- parks, water, store
- Teach the child how to ask for help- “Helpful/Good strangers”
- Teach how to call 911- how to say your name, address and phone number clearly.

# What to Do if you are lost in a Store?

- State your name clearly
- Know your phone numbers, address and parents name
- Role play situations
- Never leave the store
- Ask a store employee for help

# At Home

- Set up an emergency response plan
- Immediately call 911
- Keep a current photo of your child available
- ID bracelet (put full name on tags and place on backpack)
- Let teachers know if wandering is an issue at home
- Meet your neighbors

# At Home

- Teach and reteach (and reteach).....
  - 1) The command to “Stop”
  - 2) Practice responding to their name
  - 3) Teach child how to swim
  - 4) Teach child street safety
  - 5) Review “good stranger”, who they can ask for help
  - 6) GPS tracking device (cell phones)

# Safety Proof Your House

- Place locks on doors higher than child can reach
- Place alarms on doors
- Make sure hazardous material are out of reach
- Indoor gates
- Gates on the perimeter of your property
- Video Monitors (Blink, Ring)

# Safety for Teens

- Online Monitoring/Issues- Social Media- Tick Tock, Facebook
- Cyberbullying
- Understanding Text/Chat/Online messages
- Victim of a Scam
- Developing Friendships online or through gaming apps
- Friendships- pursued
